SKILLS

Comunication

Web developing

Python

SQL

C++

EXPERIENCE

Static.int Educare   May 2020 - july 2020

As an intern i was indulged in various technology such as **Python**, **Django**, **Andriod**, **Flutter**, **Blockchain**, **Git** and **Github** on several projects.

EDUCATION

BTech, Computer Engineering   2021 - 2024   7.44 (CGPA)
Alamuri Ratnamala Institute of Engineering and Technology.

Diploma in Computer Engineering   2018 - 2021   85.31%
Zagdu Singh Charitable Trust College of MMS Thakur.

Secondary School Certificate   63.20%
Oxford Public School.

PROJECTS

Indian Sign Language Recognition App

Developed a real-time Indian Sign Language (ISL) recognition application in **Python**. The system utilizes **MediaPipe** and **cvzone** for hand detection and tracking. A **Keras** model,trained on a custom dataset of 350+ images per sign using Google Teachable Machine, performs gesture classification. This project leverages **TensorFlow** for deep learning computations within the Keras framework.

Car Rental App

Built a car rental app leveraging **APIs** for vehicle availability, pricing and bookings. Integrates with a user-facing mobile interface for real-time search and reservation functionalities.

Portfolio and WebStore for a Band of Musicians

Built a musician band's portfolio & webstore using **HTML/CSS/JS** for a dynamic frontend. **MySQL** database on the backend manages product & show listings.Showcases merch sales, and upcoming gigs with a user-friendly interface.

Covid-19 Case Tracker

Developed a COVID-19 case tracker leveraging web scraping to collect real-time data from external sources (**API's**). The application dynamically visualizes state-level infections and recoveries on an interactive globe using a **JavaScript** framework.
